WINNIPEG / MANITOBA

RESIDENTIAL DESIGN + BUILD

Rooms that hold a life.

Considered renovations and additions, shaped around the way you live.

RENOVATIONS / ADDITIONS / INTERIORS

A complete home, considered together.

Design and construction move as one conversation - from the first plan to the final fitting.

01 Whole-home renovations

A clear design language carried from the first room to the last.

02 Additions & re-planning

More useful space, resolved as part of the original architecture.

03 Kitchens & interiors

Quietly functional rooms, detailed in enduring natural materials.

Three clear movements.

01

Listen

We map the rituals, constraints and possibilities of home.

02

Resolve

Design, selections and scope are coordinated before work begins.

03

Make

A focused build team carries the intent through every detail.

Two homes. Two distinct rhythms.

LIVING ROOM RENEWAL

Cedar House

A lowered hearth, continuous walnut joinery and a view framed toward the prairie turned a pass-through room into the centre of the home.

PRIVATE SUITE

Alder Lane

Stone, timber and filtered garden light give a compact primary suite the calm of a retreat without losing its everyday usefulness.

Material notes

Honed travertine / fluted walnut / brushed bronze

HAVEN & CO.

Begin with the way you want to live.

Share what feels unresolved. We will help
shape the right next move - from a single
interior to a whole-home transformation.
